Welcome to Alva S. Pack III OD & Associates

We are pleased that you have chosen to come to our office for your eye care needs. Each patient's needs remain the primary focus of our team. The mission of our practice is to meet your comprehensive visual and ocular health needs and to exceed your expectations in a friendly, compassionate, educational atmosphere, nurturing a lasting relationship with you.

Although we do our best to stay on schedule, sometimes delays cannot be avoided due to the complexity of our patient's cases or emergencies that the doctor has to work into his schedule. We apologize for any wait time that you may experience, but please understand that your time is very important to us and the doctor will spend as much time with you as needed to answer all your questions and provide a thorough diagnosis and plan for you.

Many people are misled into thinking eye care is the same from one place to another, but it's not. Seeing the eye chart is one thing...but vision and medical eye health care varies dramatically. We see it as total vision and medical eye health. We want you to know that we are not only concerned about your current vision, but maintaining good vision for many years to come. In order to adequately assess the overall health of your eyes, we often need to dilate your eyes. The dilating drops may cause blurry vision up close and light sensitivity. These side effects may last 3-6 hours depending on your eye color and age. You may want to bring along a driver to be present when your eyes are dilated. You may come in at a later date for the dilated portion of your exam if it is not convenient for you the same day of your exam.

What To Bring To Your Appointment

All Patients

1. Picture ID, Vision and Medical Insurance Card
